

# the DIVA™

## 5 Spray Extra Wide Massage Showers

**Relax, Indulge, Enjoy** with the oversized 5" **DIVA** 5 spray massage showers. Available in conventional wall mount or European style hand held shower, all include the Power Boost advantage for increased performance in weak pressure areas.

**Hand Showers** include the amazing **BUNGY** shower hose, a polished chrome finish or brushed nickel finish

**DIVA's** 5 spray settings include:

**Hard Shower Spray**, 38 soft spray jets provide a hard full body, extra wide shower spray with great rinsing force and coverage area

**Fast Pulsating Massage** 8 alternating jets provide a penetrating massage flow great for tired, aching muscles..

**Soft Champagne Bubbles**, 10 bubble jets create a full body softer gentler flow

Plus **2 Combination sprays** that combine the hard shower spray with either the pulsating massage or champagne aerated streams.

### The Power Boost Advantage

All **Flow Pro Massage** Showerheads and Hand Shower Kits include our Power Boost Advantage, a flow regulating system that allows the user with less than 80 psi water pressure to adjust the force, and flow rate, of the shower insuring a good quality shower at any water pressure. This consists of a series of 3 brass flow restricting discs, each with a slightly larger thru hole for maximum comfort in lower water pressure situations. Designed to provide a strong 2.5 GPM shower at 80 psi, maximum allowed by Federal Codes, this allows those with lower pressure to still get a good shower without wasting water or energy!.
