

Flow Pro Massage™

3 Spray Showers with Power Boost

Experience the Sensation of the **Flow Pro Massage** showers with 3 spray patterns and a pause, or trickle, setting to save while lathering. The different Spray Settings include::

Hard Shower Spray, 39 jets provide 2 layers of hard full body spray
Fast Pulsating Massage 6 alternating jets provide massaging feel
Combination Spray & Massage that combines the hard shower spray with the pulsating massage for a more full body spray.
 2.5 GPM Maximum flow rate at 80 psi, complies with federal codes and includes the Power Boost Advantage for improved performance in lower water pressure areas.

The chrome hand showers include the 59" **Bungy** stainless steel shower hose that stretches to over 80" for greater tub area coverage.
 The white hand showers includes the 59" SuperFlex shower hose.

The Power Boost Advantage

All **Flow Pro Massage** Showerheads and Hand Shower Kits include our Power Boost Advantage, a flow regulating system that allows the user with less than 80 psi water pressure to adjust the force, and flow rate, of the shower insuring a good quality shower at any water pressure. This consists of a series of 3 brass flow restricting discs, each with a slightly larger thru hole for maximum comfort in lower water pressure situations. Designed to provide a strong 2.5 GPM shower at 80 psi, maximum allowed by Federal Codes, this allows those with lower pressure to still get a good shower without wasting water or energy!.
