

Introducing!

Blaster Massage™

5 Spray Showers with OxyBlast spray

Experience the Sensation of the amazing **Blaster Massage** showers that offer 5 spray patterns, 3 unique settings and 2 combination sprays, plus a trickle, or "paws" setting, great for washing the dog, helping someone shower or to save water while lathering.

The 3 individual shower sprays are:

OxyBlast, 7 high velocity Oxy Jets provide a full and strong spray made up of thousands of droplets of water combined with oxygen rich air for a great feeling, invigorating and deep cleansing shower spray.

Hard Shower Spray, 39 jets provide 2 layers of hard full body spray

Massage 6 alternating jets provide massaging feel

Plus 2 **Combination sprays** that combine the OxyBlast spray with either the pulsating massage or hard shower spray.

Available in chrome, brush nickel and matte black, the hand showers include the amazing **59" Bungy** stainless steel stretch shower hose that stretches to over 80" for greater tub area coverage!

The Power Boost Advantage

All **Blaster Massage** Showerheads and Hand Shower Kits include our Power Boost Advantage, a flow regulating system that allows the user with less than 80 psi water pressure to adjust the force, and flow rate, of the shower insuring a good quality shower at any water pressure. This consists of a series of 3 brass flow restricting discs, each with a slightly larger thru hole for maximum comfort in lower water pressure situations. Designed to provide a strong 2.5 GPM shower at 80 psi, maximum allowed by Federal Codes, this allows those with lower pressure to still get a good shower without wasting water or energy!
